PROFILE

AI & Automation Specialist skilled in building end-to-end automation systems and web applications using no-code and low-code tools. Experienced in integrating APIs, developing agentic AI workflows, and using LLMs to streamline business operations, accelerate response times, and drive measurable outcomes. Strong technical foundation in system design, prompt engineering, and AI workflow automation.

WORK EXPERIENCE

AI & Automation Specialist | Vedantu | Bengaluru, India **July 2025 to Present**

- Built an AI-powered sales automation ecosystem integrating n8n, OpenAI, Gemini, LeadSquared, and MoEngage to process 10,000+ leads daily, reducing turnaround time from hours to under 15 minutes.
- Deployed agentic AI voice and chat agents that qualified and routed leads in real time, improving lead quality accuracy by 27% and conversion rate by 15%.
- Created a campaign management system connected to Supabase and Metabase APIs, automating data cleaning and reporting, cutting manual tracking by 80%.
- Developed no-code applications and micro-automations across marketing, sales, and engagement layers, reducing operational costs by nearly 65%.
- Engineered advanced prompt frameworks for LLMs to enhance personalization, data retrieval, and real-time decision-making across chat, voice, and CRM systems.

Technical Consultant | Anbalippu Gifting Solutions Pvt. Ltd., Chennai, India **Feb 2024 to June 2025**

- Deployed GenAI automation frameworks for sales, social media, and communication, cutting manual effort by over 70%.
- Designed structured prompts and parameterized workflows using GPT-4, Zapier, and Copilot to optimize collaboration and operational tracking.
- Conducted business analysis on order management and finance workflows, translating functional challenges into prompt-based AI solutions.
- Enabled scalable automation for revenue forecasting, churn analysis, and inventory tracking across marketing, operations, and customer support.

PROJECTS

- **AI Sales Automation (AI Voice/Chat Agents) |** ***Vedantu*** **-** Built an AI-driven sales funnel using n8n, OpenAI/Gemini, LeadSquared, and WhatsApp API to integrate AI voice agents built using Elevenlabs, AI chat agent, and CRM workflows, improving conversion by 15% and reducing lead turnaround to less than 15 mins**.**
- **Online Store Integration |** ***Vedantu*** **–** Automated Shopify order management and third-party fulfilment using n8n and JavaScript, implementing intelligent error handling and a live dashboard to cut fulfilment time from 1 week to 24-28 hours**.**
- **AI Proctor |** ***Vedantu*** – Deployed an AI voice agent using n8n, Supabase, and Claude for automated attendance tracking via WhatsApp API, building a monitoring dashboard, and increasing attendance from 60% to 81% in two months.

- **Churn Analysis & Forecasting Assistant | *Anbalippu.in*** – Used prompt-driven spreadsheet automations integrated with Google Sheets logic and data visualizations to track retention metrics and forecast churn risk.
- **Investor & Policy Documentation Generator | *Anbalippu.in*** – Streamlined the creation of HR policies, pitch decks, and investor briefs using HITL-based prompt engineering workflows.
- **Tool Bit Sorting System (Academic)** – Created a robotic sorting prototype using image recognition, TensorFlow, and Arduino integration for manufacturing use cases.

EDUCATION & QUALIFICATIONS

University of Central Lancashire - MSc in Mechatronics and Intelligent Machines 2023

- First Class with Distinction | Dean's List 2023
- **Dissertation:** AI-powered Tool Bit Sorting System Using Machine Vision

Alagappa Chettiar Govt. College of Engineering & Technology. – BEng in Mechanical Engineering – 2021

- First Class with Distinction
- **Capstone:** Fabrication and Characterisation of TiO2 and Al2O3 PVD Coating.

TECHNICAL SKILLS

- **Automation Platforms:** n8n, Make, Zapier, Supabase, Google Cloud, MoEngage, WhatsApp API, Postman
- **AI & LLMs:** OpenAI GPT-4, Gemini 2.5 Pro, Claude, LangChain, Replit, Cursor.
- **Programming & Scripting:** Python, JavaScript, SQL
- **Data & Visualization:** Google Sheets API, Metabase, API integration, Reporting Automation
- **CRMs & Tools:** LeadSquared, Shopify, Retell, Repro, Elevenlabs
- **Others:** Voice AI Agent setup, Webhooks, JSON API workflows, Prompt Engineering
